

Twin-Go T portable

GLASS CLEANING

WHEREVER IT IS NECESSARY

Uncompromisingly clean glasses even without a sink!
Thanks to the SPÜLBOY® Twin-Go T portable you are
at liberty to exercise the next mobile, hygienic flawless
glass washing wherever you want.

**COOL. CLEAN.
PORTABLE.**

Best engineering

100% hygiene

100% efficiency

100% flexibility

The SPÜLBOY® Twin-Go T portable is the ideal solution when it comes to cleaning the glasses without a sink. The principle is easy as usual, however very efficient.

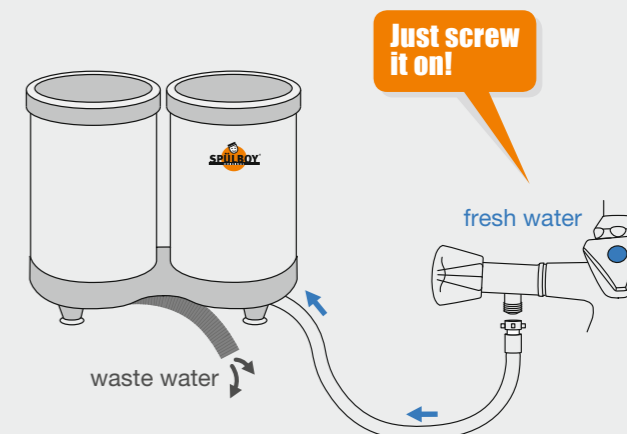

The glasses are getting cleaned mechanically in the pre-washing canister through the inner and outer brushes in combination with our glass washing tablets, which were developed exclusively for the SPÜLBOY® glass washing machines and ensure a 99.9% of E. coli and Pseudomonas bacteria and herpes HSV type 1 virus free result.

In the rinsing canister the glasses are getting rinsed with a jet of fresh water through the well established telescopic rinse and the elaborated double ring-shower including handle and stem up to a length of 24cm. Through an additional, waste water drain hose system at the bottom of the Twin-Go T portable, this machine can easily be installed and used at the top of the bar counter, at the working desk or garden table: wherever you might want to take a drink!

Always use the original!

Due to our biological degradable original SPÜLBOY® glass washing tablets, which are non-toxic, you can let your waste water be drained without any doubts.

- ✓ tested by independent institutes
- ✓ legally & officially impeccable

Portable with drain hose!
