A CLEAR ADVANTAGE! INNOVATIONS MADE IN GERMANY.

Truly groundbreaking developments are created when experience meets innovative strength. It's hard to believe: Original Spülboy models have been manufactured in Wuppertal for over 40 years – and are now as innovative as they were back then. How does that work? We continue to develop and optimise our company as well as our products as a matter of course.

In addition, continuous controls in our modern, ISO-certified operation ensure consistent product quality, a long service life and high functionality.

THINK NEW. CLEAN GREEN!

OUR VISION. LIFE QUALITY FOR ALL

As market leader on the field of manual glass cleaning systems our aim is to improve quality of life for all our customers by using our innovative products. Our goal is to serve hygienic clean glass all over the world - already for more than 40 years!

Original Spülboy® glasswashers need no power, are mobile, have a minimal water consumption and convince by very easy handling and the unique „Hygienic Design“.

1 BRAND. 3 STRONG PRODUCTLINES

Discover the future way of glass cleaning

ECO LINE

CLASSIC LINE

NU[®] LINE

ECO 3

The ECO 3 is characterized by a particular space-saving design and offers the same advantages as the classic and NU lines. This is the only device in the range of smaller glass washers. It is an ideal device for getting started. The ECO 3 also is available as a portable unit.

- ⊕ **Canister Ø 15 cm**
- ⊕ **Easy clix® connection**
- ⊕ **60 cm hose**
- ⊕ **3/8" connection**
- ⊕ **Automatic fresh water refill by using the rinse system**

CLASSIC / NEPTUN T2000

The Neptun T2000 is one of our classic device. It is simply to use, space saving and very easy to clean. It is characterized by an open post rinsing system and fits in every counter sink from a size of 33 x 19 cm. Whenever the rinse is activated, fresh water flows into the washing unit.

- + **Canister Ø 18 cm**
- + **Easy clix® connection**
- + **60 cm hose**
- + **3/8" connection**
- + **Suitable for all glasses**
- + **Automatic fresh water refill by using the rinse system**

CLASSIC / TWIN-GO T

The Twin-Go T is also one of our classic devices. Whenever the rinse is activated, fresh water flows into the pre-rinse unit. The Twin-Go T also is available as a portable unit.

- ⊕ **Canister Ø 18 cm**
- ⊕ **Double ring shower system**
- ⊕ **Easy clix® connection**
- ⊕ **60 cm hose**
- ⊕ **3/8" connection**
- ⊕ **Suitable for all glasses**
- ⊕ **Automatically fresh water refill by using the rinse system**

SPÜLBOY NU®

The newest generation

The innovative hygienic design of the Spülboy NU combines a very solid construction with a perfect hygienic cleaning performance. NU cleans all kind of glasses and sets new standards.

WELCOME TO THE NU[®] WORLD!

NU[®] Construction

Intelligent! One-piece construction, two canisters. Especially the big washing and rinse canisters are suitable for all glasses, even sizes up to 1l. NU trendsetting: the combination of hard plastic with integrated soft plastic components provide a perfect glass protection.

NU[®] Hygienic Design

Clean is cool! The close and solid construction is unique and sets complete new standards regarding international certifications and regulations. NU simplifies workflows and combines innovative technic, hygiene and design.

NU[®] Sustainability

Think new! Clean green. Hygienic glass washing without electricity and most economic water consumption. Typical: the optimized water supply and the efficient water circulation guarantee an amazing water quality.

NU[®] Style

NU is pure! Due to the design and fresh colours NU fulfills all requirements for a modern and hygienic bar area. A design object compelling for everyday's quality.

NU[®] 3 in 1

One washer, three individual purposes. NU convinced in three ways: as a modern standard version, as a flexible portable glass washer or as a custom made built in device. Our Opinion: Wow!

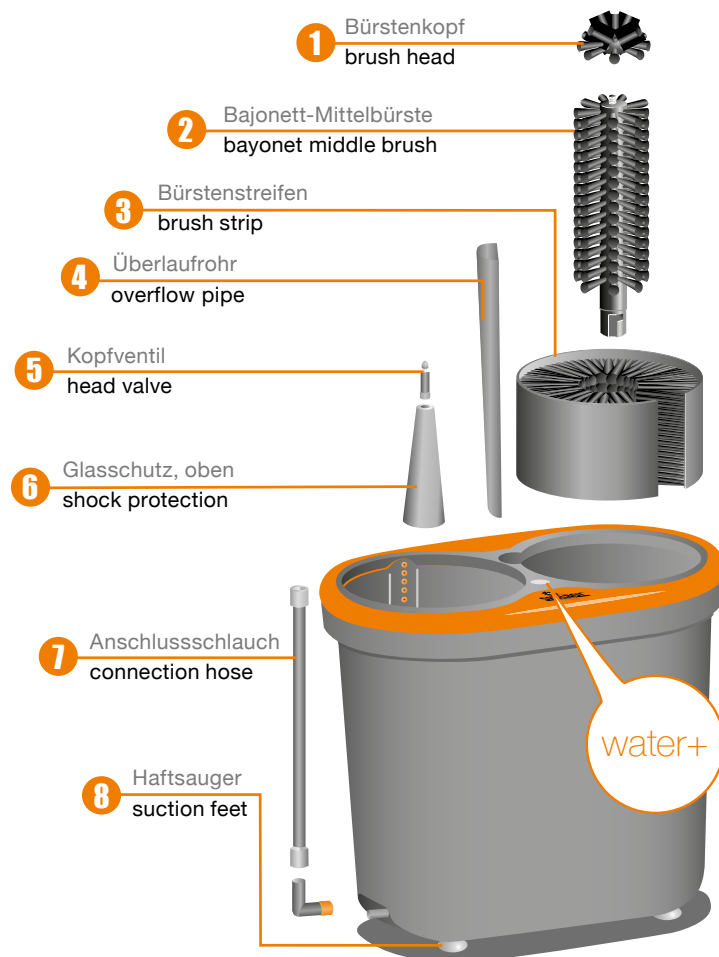

NU[®] Quality

Highest quality! Innovative engineering! 100% made in Germany. NU redefines Quality. Spülboy NU renounces as much as possible spare parts to it's best. In need just change the brushes, that's it! This is how we define quality and efficiency!
