

THE WHOLE WORLD OF SPÜLBOY®

Glass washers and accessories for professional washing

CLASSIC PROGRAMME 2014

OUR CONTRIBUTION TO A GREENER WORLD.

SUSTAINABLE SUCCESS FOR YOU! THIS IS WHAT SPÜLBOY® STANDS FOR

Perfect hygiene and cleanliness as well as pioneering ecological friendliness.

The brand Spülboy® has been setting successful high standards in professional glass cleaning for over 40 years - and also in terms of sustainability. Can you think economically and still protect the environment? For Spülboy® it's a matter of course.

All Spülboy® models work without electricity and with the lowest possible water consumption.

Only 10cl water is needed for each washing process. And the best thing is: Spülboy® guarantees a 100% hygienically clean result - without the use of aggressive cleaning agents.

Spülboy® shows how profitable environmental awareness can be and is therefore clean in every respect.

Use our know-how for your future-orientated strategies in the hotel and catering industry.

The Spülboy® glass cleaning tablets are fully biodegradable and thereby protect the environment.

And with regards to the Spülboy® models themselves: Every Spülboy® is fully recyclable and does not have to be disposed of as special waste. This also applies to the packaging: Spülboy® is a member of the RESY, a German organisation for the disposal of recyclable material.

PERFECT CLEANLINESS. MADE FAST AND EASY.

NEPTUN T2000 WITH TELESCOPIC WASHING

Waste water outlet

To improve the quality of the water in the pre-wash canister the waste water outlet is located diametrically opposite to the fresh water inlet.

Plug-in coupling

The series standard installed plug-in coupling allows the fast and problem-free disconnection of the connection hose.

Closed construction

The hermetically closed construction of the base allows the device to be cleaned and thereby ensures hygienic and convenient washing. The Spülboy® therefore meets the strict requirements of the Hygiene Directive and DIN 6653-3, part 3.

Soft pads

Soft pads protect the glasses from damage.

NEPTUN T2000

The Spülboy® NEPTUN T2000 is our most exclusive model with open final rinsing. Cleans all glasses, from shot glasses to beer glasses up to a depth of 24cm, lightly and swiftly. Fast and simply economical: You just have to clean one rinsing canister. Fits into any bar sinks larger than 33x19cm.

Technical data:

Length: 33cm Width: 19cm
Height: 33cm Canister ø: 18cm
Weight: 1.9kg

Neptune T2000 art. no. 1670

Extremely hospitable! Spülboy® is the no. 1 for excellent hygiene in the hotel and catering industry.

Original Spülboy® models are mobile, work with just water pressure, are very easy and fast to handle and are also extremely water-conserving and space-saving. All devices have been extensively tested and are recommended by the German Federal Institute for Food Control.

MADE IN GERMANY. FOR MORE FLEXIBILITY.

TWIN-GO TELESCOPE

Double ring shower
Double rinsing power guaranteed!

Plug-in coupling
The series standard installed plug-in coupling allows the fast and problem-free disconnection of the connection hose.

Closed construction
The patented hermetically closed construction of the base makes cleaning the device easier, removes the need to dismantle the device and thereby ensures hygienic and convenient cleaning. The Spülboy® therefore meets the strict restrictions of the Hygiene Directive and DIN 5333-3.

TWIN-GO TELESCOPE

A real classic! The tried and tested Spülboy®, which has double final rinsing power due to its double ring shower. The robust 2 canister device also impresses with its flexible telescopic final rinsing. It can be used to clean all glasses including the stem and base, up to a depth of 24cm.

Technical data:

Length: 37.5cm Width: 18.5cm
Height: 32.5cm Canister ø: 18cm
Weight: 2.9kg

Twin-Go T art. no. 1550

More flexibility for everyone!

The glasses are mechanically washed in the pre-wash canister with inner and outer brushes. In the final rinsing canister or with the open final rinsing (depending on the model) each glass is rinsed with fresh water on the inside and outside with the patented 2-level valve. Water is only used if the final rinse is activated. Parallel to the rinsing of the glass, fresh water also runs into the pre-wash canister and therefore guarantees a constant supply of fresh water. All types of glasses and glass - from rustic beer glasses to fine crystal red wine glasses - are cleaned perfectly and the guest can purely enjoy his/her drink.

100% HYGIENE. ALL AROUND THE WORLD.

TWIN-GO T PORTABLE

It is possible to install the device outside of the sink, only a water supply is needed.

The water outlet means that the portable device can be used away from bar sinks.

TWIN-GO T PORTABLE

Double rinsing power, even without a bar sink. This Spülboy® classic has been designed as a robust 2 canister device and provides flexible telescopic final rinsing - portably, wherever you want. Use it to clean all your glasses including the stem and base up to a depth of 24cm.

Technical data:

Length: 37.5cm Width: 18.5cm
Height: 32.5cm Canister ø: 18cm
Weight: 2.9kg

Twin-Go T Portable art. no. 1552

More mobility. More independence.

Clean glasses wherever you want! The Spülboy® Twin-Go T Portable is the ideal solution if there is no sink available.

The principle is easy and very effective. The glasses are mechanically cleaned in the pre-wash canister with inner and outer brushes. The intelligent water outlet system on the base of the device allows it to be installed and used away from a sink: on a worktop, in bars, on the garden table or wherever you are hosting guests.

DIN

The Neptun, Twin-Go T and Twin-Go T portable devices have been designed in accordance with DIN 6533-3 and therefore meet all of the requirements for manual glass washers. All devices are equipped with tested water connection hoses, which correspond to the German Drinking Water Act of 01.01.2003.

BIG WHEN IT COMES TO SUSTAINABILITY. SMALL IN THE BAR.

SPÜLBOY® NO.3

ALSO AS PORTABLE

NO. 3

Our small number only needs a bit of space and fits easily into any bar area. It can be used in bar sinks or even – with a little added equipment – as a portable device without a sink. The Spülboy® no. 3 has a canister diameter of 15cm, provides a bayonet middle brush, a ring shower and fixed final rinsing.

Technical data:

Length: 32.5cm Width: 16cm
Height: 31cm Canister ø: 15cm
Weight: 2.1kg

Spülboy® no.3, art. no. 1510

Small! But with all of the benefits of larger devices.

Not much space in your bar area? Spülboy® no. 3 is the solution for you. Benefit from optimum glass washing, guaranteed not to leave fatty or lipstick residues and to be 100% hygienically clean. Typical Spülboy® benefits at a glance:

- Large water savings due to the pressure rinse (water only flows when a glass goes through the final rinsing)
- Separate pre-wash and final rinsing in one bar sink
- Schonung des Glas-Dekors, da nicht heiß gespült wird
- Easy-to-clean device: The brush strip, bayonet middle brush as well as the shock protection rings and ring showers are easy to remove
- Problem-free connection

PURITY REQUIREMENTS FOR TEA GLASSES?

ÇAY SPÜLBOY®

ÇAY

For over 40 years Spülboy® has been playing an important role in the hotel and catering industry. Also with regards to tea culture. Be it in a cultural centre, club bar or a tea shop ... The correct brewing in a samovar and serving in an original Çay glass cleaned with Spülboy® makes the ritual perfect. A tailor-made brush which has been developed especially for the size and shape of normal Çay glasses allows perfect cleaning.

Technical data:

Length: 32.5cm Width: 16cm
Height: 25cm Canister ø: 15cm
Weight: 1.6kg
Çay Spülboy® art. no. 1520

Tea drinkers have their own culture. And their own Spülboy®

The benefits are obvious:

- The brush which has been especially developed for tea glasses guarantees uncompromising hygiene: 100% free of E. coli bacteria and herpes viruses.
- You can also look forward to a clear cost saving, as the device is operated completely without electricity, impresses with its minimum water consumption and preserves even very sensitive decorations.
- In addition to tea glasses all glasses of up to 0.3l without a stem can be cleaned without a problem.

NO EXPERIMENTS!

SHAKER CLEANER

art. no. 7056

art. no. 7055

art. no. 7057

SHAKER CLEANER

Cleans your shaker, cocktail blender and decanter with a powerful fresh water rinse. All you need is a sink and a water connection and you can use the shaker cleaner straight away. It is not necessary to turn it on and off as this device is operated completely without electricity. The different inserts guarantee perfect cleaning:

- Star insert with 30mm for use with normal shakers
- Star insert with 70mm for use with shakers with blades
- Nozzle cap for wetting the glass before pouring, to guarantee a perfect head on the beer

Technical data:

Height: 31cm Base: Ø = 14.5cm
Weight: 0.6kg

Shaker cleaner art. no. 7057 - 70s star

Shaker cleaner art. no. 7056 - nozzle cap

Shaker cleaner art. no. 7055 - 30s star

Our goal? A good drink for you.

The Spülboy® shaker cleaner is easy to use and cleans quickly and perfectly thanks to the various inserts for different types of shakers.

Like all Spülboy® models the shaker cleaner also works without electricity and impresses with its extremely low water consumption.

CLEAN TO PERFECTION.

Thanks to the Spülboy® experts on site.

Better Spülboy®

Spülboy® stands for individual glass washing systems from Schicker & Schäfer in Wuppertal. The original Spülboy® models are mobile, work with just water pressure, are very easy and fast to handle and are also extremely water-conserving and space-saving. All devices have been tested and are recommended by the German Federal Institute for Food Control

Enjoy healthier with Spülboy®.

When used correctly in a Spülboy® glass washer, the Spülboy® glass cleaning tablets remove up to 100% of E. coli and pseudomonas bacteria and up to 99.9% of herpes HSV type 1 viruses. Tested by independent, DIN EN ISO ICE 17025 accredited test laboratories for foodstuff and trade chemicals.

Leading standards are the norm.

All Spülboy® devices have been registered according to DIN 6653-3:2011-01 (RD022). With its patented, encapsulated base Spülboy® sets completely new standards.

Think new! Clean green.

Spülboy® works without electricity and with a low water consumption of just 10cl of water per rinsing process. Of course, the Spülboy® glass cleaning tablets are also biodegradable. Spülboy® only uses high-quality, tested plastics of goods class A from Germany and Europe. The long life-span is supported by the modular system, whereby each part can be exchanged for a replacement part and is completely recyclable.

Brand quality made in Germany.

There are now Spülboy® customers in many countries. All the original Spülboy® models have been produced for over 40 years according to the highest standards at our site in Wuppertal. Permanent checks at our modern, ISO-certified site guarantee consistent product quality for problem-free functioning, a long life-span and high functionality. Today Spülboy® is part of modern catering's standard programme and is a guarantee for perfect glass washing. We strive to meet the needs of our customers worldwide, which is why customer service is always our number one focus.
