

## SPÜLBOY NU®. tested. certified! SK 436-001

We made it! Spülboy NU fullfills the strict criterias and requirements of DGVU Test- & Certification institut and has received the safety and quality DGVU Test – SK approval. This allows by that the use of the SK mark SK 436-001.

This certification requires several tests with reference to the DIN 6650-5:2014/12 dispense systems – part 5 which contains the assessment of safety, hygienic and application- technical characteristics, functions and types of construction. Furthermore this certification includes the test of all requirements to manual glass washing system with separated pre- wash and rinse ambits according to the DIN 6653-3, which was carried out by the Technical University Munich.

Convince yourself of the advantages of Spülboy NU®. Well done and thank you! Stay clean!

## SPÜLBOY® International Breslau keeps it clean!

Polens gastroszene met for three days in the century hall of Breslau/ Wroclaw. Of course the Spülboy was not missing there. During these days Spülboy took over the complete responsibility of 100% hygienic clean galssware for all visitors. In cooperation with our Polish distribution partner three washing stations were provided so that visitors had the chance to clean their glasses by themselves and enjoy every tasting from a crystal clear glass. At the central Spülboy booth the visitors were informed about the ecological and economical advantages, the cleaning performances and the dead easy aplication. We love it clean!
